## Harrison Lot of Webb Forest Preserve #75 (69 acres)

Youngs Hill Road, Sunapee, NH

The Harrison Lot of the Webb Forest Preserve has been under Tree Farm management since the 1960's and such practice of sustainable forestry has produced a high quality red oak and sugar maple forest. The trails looping through the 69 acre conservation easement remain groomed and maintained for winter skiing and snowshoeing by a local inn, but are also suitable for walking in other seasons. This loop connects with other veritable paths which travel off the conservation easement, but also with many logging road offshoots that quickly dead end.

**Driving Directions:** From the intersection of routes 103 and 103B (at the base of Mt. Sunapee) travel west on 103 for 2.2 mi and turn right on Stagecoach Rd. Travel 1.6 mi and turn left onto Youngs Hill Rd. Travel for about 0.3 mi and the trailhead will be on the left with an ASLPT sign.
